IPR & Regulatory Centre

Hyderabad

Pharmexcil has opened IPR & Regulatory Centre at Hyderabad in July 2008. The centre is operating by availing advise of Dr. Gopakumar G. Nair, Mumbai, a well known Patent Attorney.

The activities/services offered by the IPR & Regulatory Centre include:

- Organizing Patent, Regulatory Awareness Programmes in different parts of the country
- Encourage IPRs (Patents) in Pharmaceutical/ Health Care sector by suitable incentives
- General information on Pharmaceutical Patents
- Information on Patent status of pharmaceutical products in India and other countries
- Interpretation of patent search information
- Search based intellectual property related technology and prior art search
- Invention mining
- Patentability opinion
- Guidance and opinion of IM launch
- Infringement analysis and opinion
- Freedom to Operate (FTO) opinions
- Monthly analysis of Indian Granted Patents
- List of drug approvals/market authorizations to various countries

The above services are offered by the IPR & Regulatory Centre at nominal charges to the members of the council depending up on the nature of the query raised by the members.

Pharmexcil requests all members to utilize the services effectively.

Queries may be sent to: Email: patents@pharmexcil.com

COURSE DETAILS

Pharmaceuticals Export Promotion Council of India setup by Ministry of Commerce & Industry, Government of India was established in the year 2004 with an objective of promoting pharmaceutical exports. With a view to provide information relating to intellectual property rights and regulatory requirements, Pharmexcil started IPR & Regulatory Centre in the year 2008 with the support of Department of Pharmaceuticals, Government of India.

As an encouragement to the members for innovations, Pharmexcil has initiated Patent Awards since 2009.

In order to encourage and initiate research and to know important information relating to patent expiries etc of new drugs, Pharmexcil is providing access to paid patent databases like Orbit, Dialog Pro on free basis to the members, emphasizing and concentrating on the SME sector.

Pharmexcil realized that there is a need to the industry professionals to further strengthen their intellectual property skills leading to more intellectual property protection in pharmaceuticals originating from India.

It is believed that pharmaceutical industries do have good intellectual property established by scientists in their organizations. However there is a need to understand by these professionals to protect innovations by knowing the legal concepts of intellectual property leading to filings, pre-grant opposition, post-grant opposition, litigations, infringements etc.,

The certificate course offered by Pharmexcil is for Pharmexcil's members and non-members belonging to councils' employees, industries, government organizations, academic institutions etc.
